KSB IS IN THE NEWS

Keep Stockwell Beautiful has been busy and the results have been great! The *Cole Kids Clean Up Stockwell* project was a finalist in the SIA of Indiana Environmental Award program. The project focuses on community service and is a service learning project for the Cole Cubs. Cargill awarded KSB with a *Water Matters* grant. This grant helped with the purchase of a windmill for the Cole pond. The aeration system will help the pond maintain an ecological balance without using chemicals. KSB also received a national grant from Keep America Beautiful from the Nestle Corporation for a *Recycle on the Go* program for \$3400. This program is in conjunction with the Lauramie Summer Recreation Booster Club and will focus on the reduction of litter on the ball diamonds in Stockwell and at Cole.
